

REPLACE TWO WATER SOFTENERS AND BRINE TANK AT
BLDG M625 MONTFORD POINT HEATING PLANT

Project is located at Bldg M625 Heating Plant. Project is to replace two water softeners and one brine tank.

Justification: Tanks are corroded and have thin spots in walls. Multiport valves are corroded and pitted to the extent the valves will not seat properly. These softeners are manually operated and due to the upcoming unmanning of plants, automatic softeners will be essential to the operation.

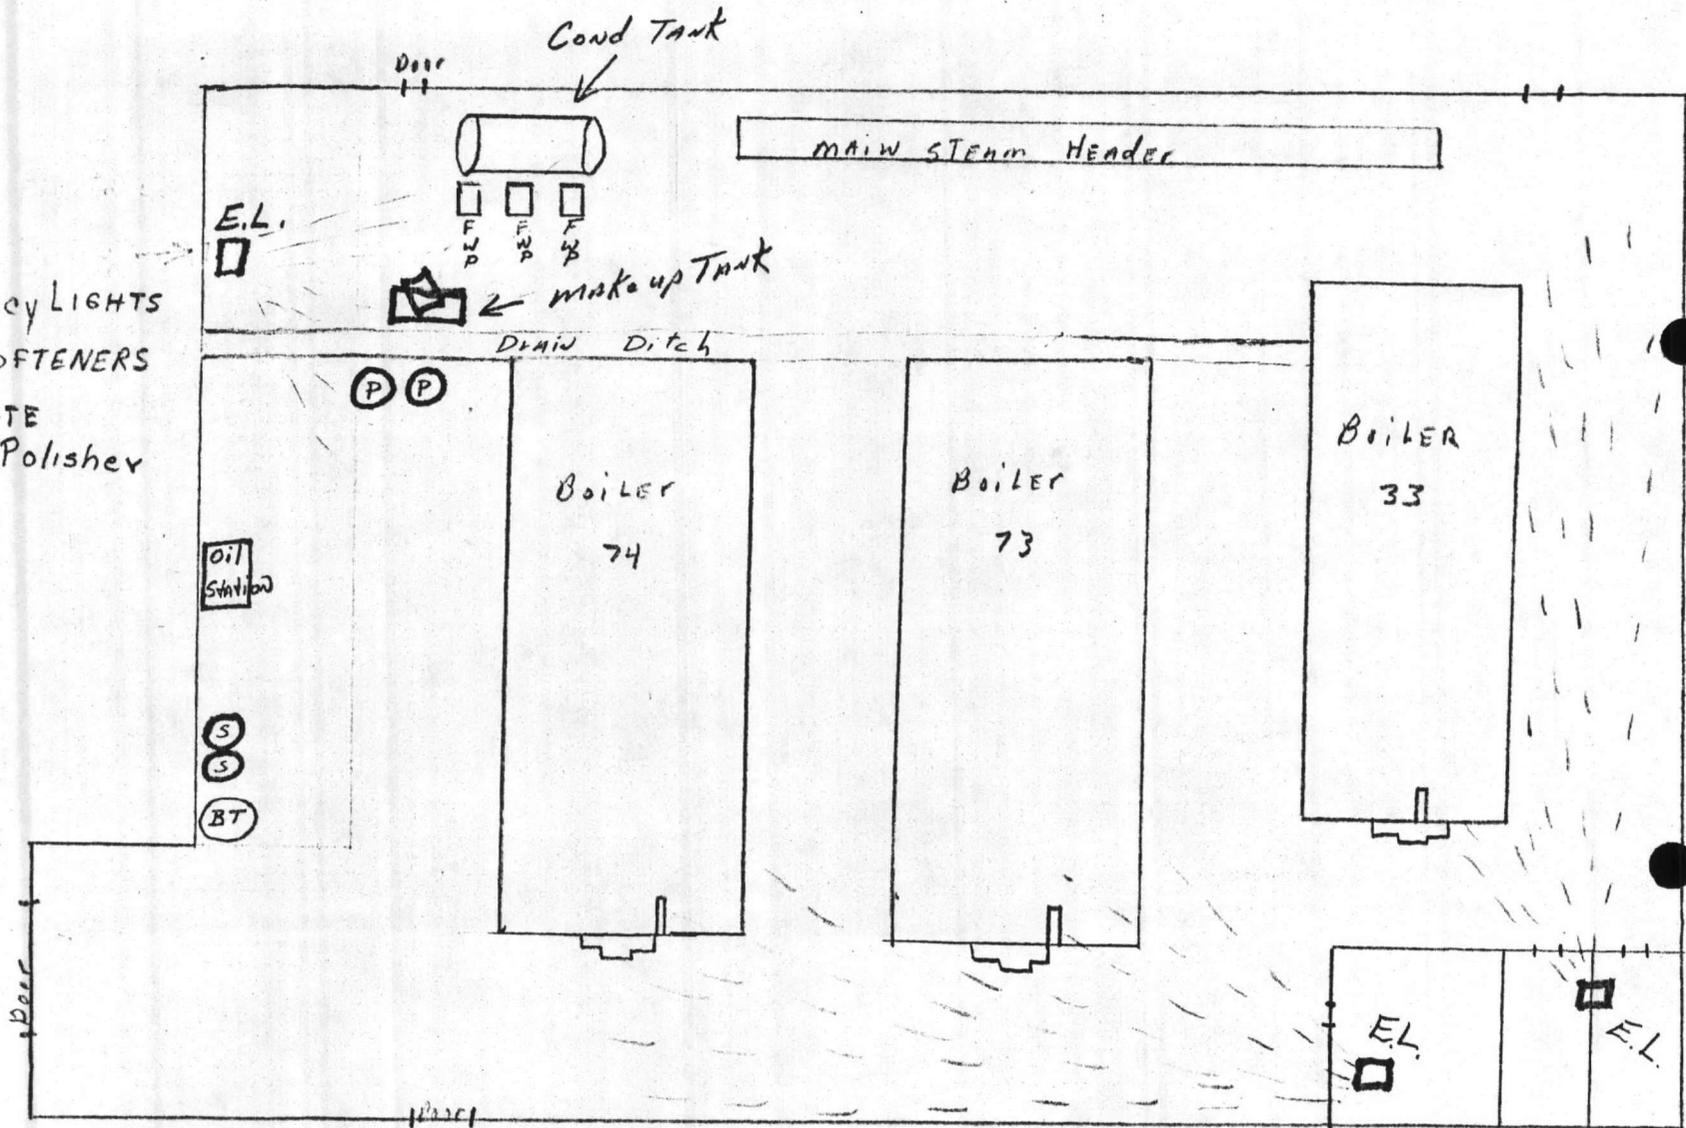

Estimated Cost: \$3,500
